I was not able to locate Freedom Industries in CBITS as a submitter but I was able to find public CDR submissions related to this company. The screenshot below was taken from the Chemical Data Access Tool and the first two results relate to Freedom Industries.

CDR - This tab contains the 2012 Chemical Data Reporting (CDR) information on the production and use of chemicals manufactured or imported into the United States. Download the entire non-confidential CDR database (updated April 4, 2013).

Chemical/Generic Name: Acetic acid, potassium salt (1:1)

CAS Number: 127-08-2

Company: FREEDOM INDUSTRIES

Site: Poca Blending LLC, Plant Road, PAR Industrial Park, Nitro, WV, 25143

Manufactured: CBI

Imported: No Data Reported

Is the chemical never physically at the import site? : N/A

Volume used on the site : 0 lb/yr

Past Production Volume : CBI

National Production Volume for Chemical : 71,466,125 lb/yr

Chemical/Generic Name: Acetic acid, sodium salt (1:1)

CAS Number: 127-09-3

Company: FREEDOM INDUSTRIES

Site: Poca Blending LLC, Plant Road, PAR Industrial Park, Nitro, WV, 25143

Manufactured: CBI

Imported: No Data Reported

Is the chemical never physically at the import site? : N/A

Volume used on the site : 0 lb/yr

Past Production Volume : 170,000 lb/yr

National Production Volume for Chemical : 46,903,993 lb/yr

Chemical/Generic Name: Lampblack

CAS Number: 1333-86-4

Subject: RE: Freedom Industries in Charleston, WV--TSCA materials

Hi Nick

We've done some preliminary research on the chemicals and may have a thought or two to consider. As a rule, TSCA collects materials from manufacturers and importers—not processors. So while it is likely we will have info on the suppliers to Freedom Industries, as well as on the specific substances in the products, we may not have any materials directly on Freedom Industries itself.

But any way is there a time maybe tomorrow am where we can work a quick conference call?

Scott M. Sherlock, Attorney Advisor

Anna, Scott,

We are conducting an investigation of Freedom Industries in regard to the chemical release and drinking water contamination by chemicals this company had on site.

We are looking for any information that your office may have on this company and the chemicals they have:

MCHM/Sureflot

We think they purchased chemicals from a manufacturer and just put their own name on the chemical and sold it as their own.

We would also be interested in other chemicals they have as well.
